

MUSERAYA USER MANUAL

...
...

HOME PAGE

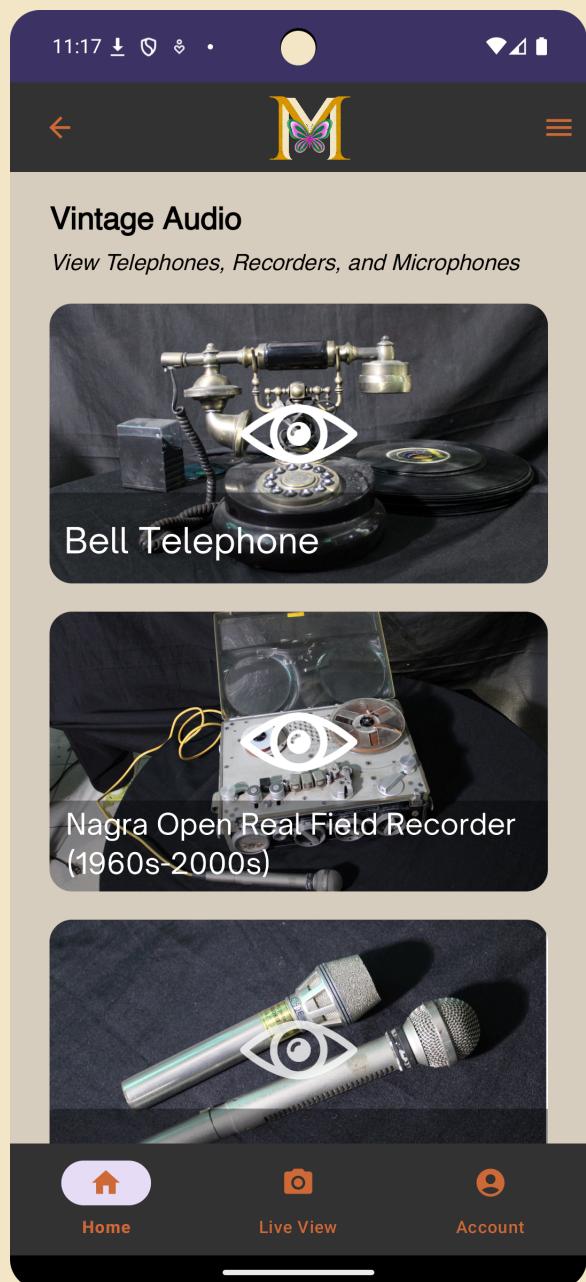

01

Select a specific **category** to display the different items available for showcase

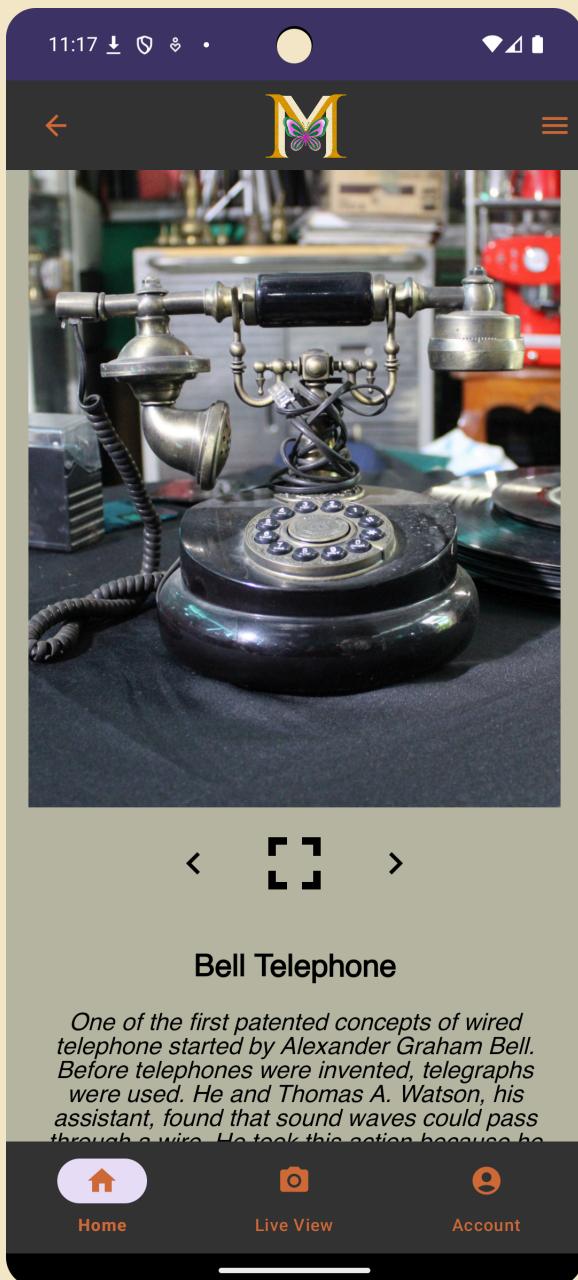

The **Home Page** consists of the various category of items in the museum catalog, consisting of Vintage Audio, Film, Music, and Paintings.

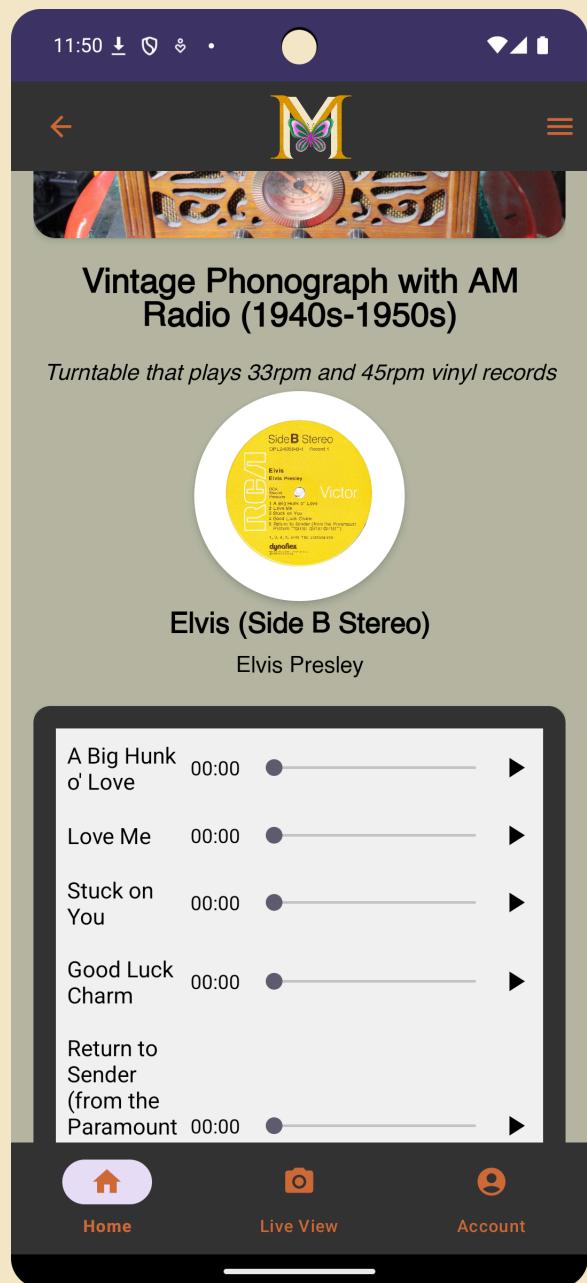

ITEM DESCRIPTION & GALLERY

02

The music artifacts contain snippets of vintage vinyl music found in the museum

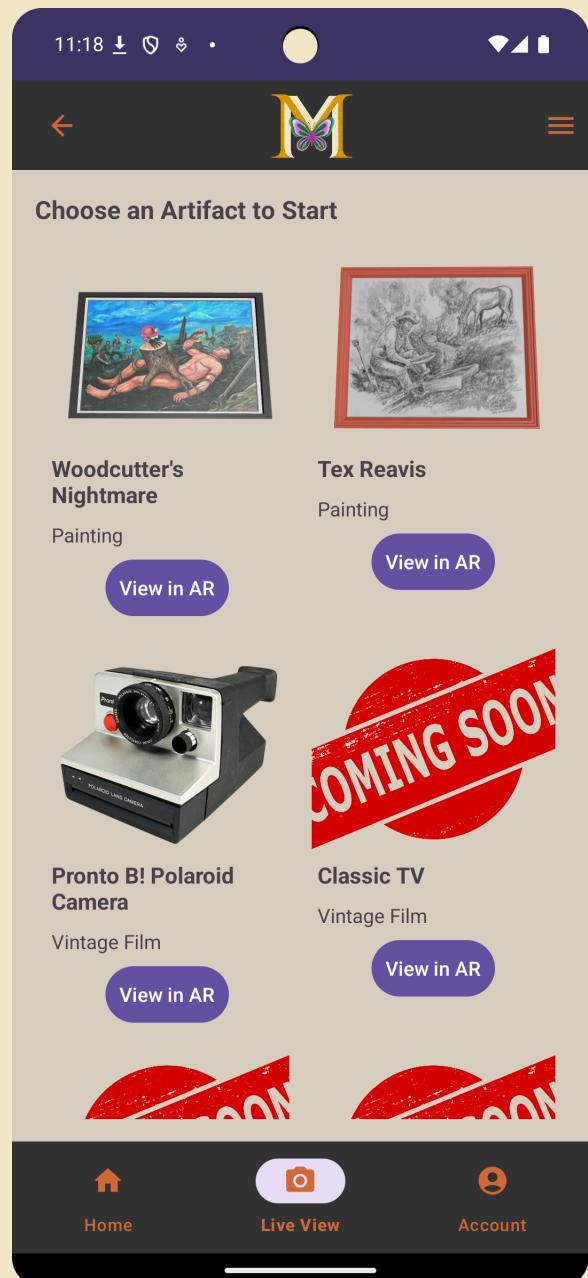

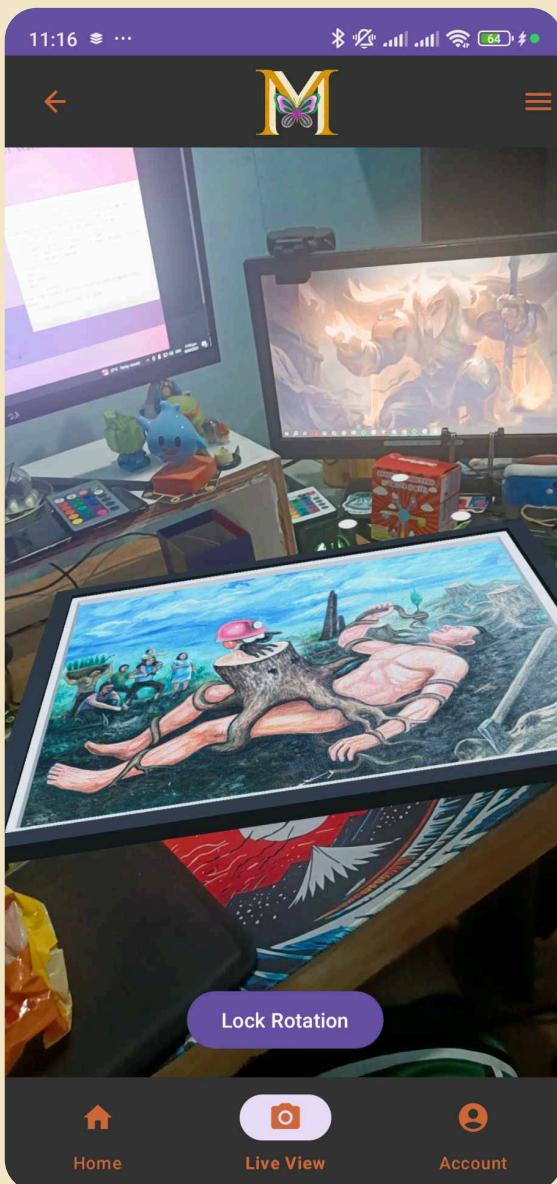

After pressing the specific item in the catalog, view the information along with the name of the artifact. View the images in full screen and slide to the image gallery using the arrows

AUGMENTED REALITY

03

Access the Augmented Reality feature using the **Live View** tab, and press the View in AR button to display the 3D model in your own space!

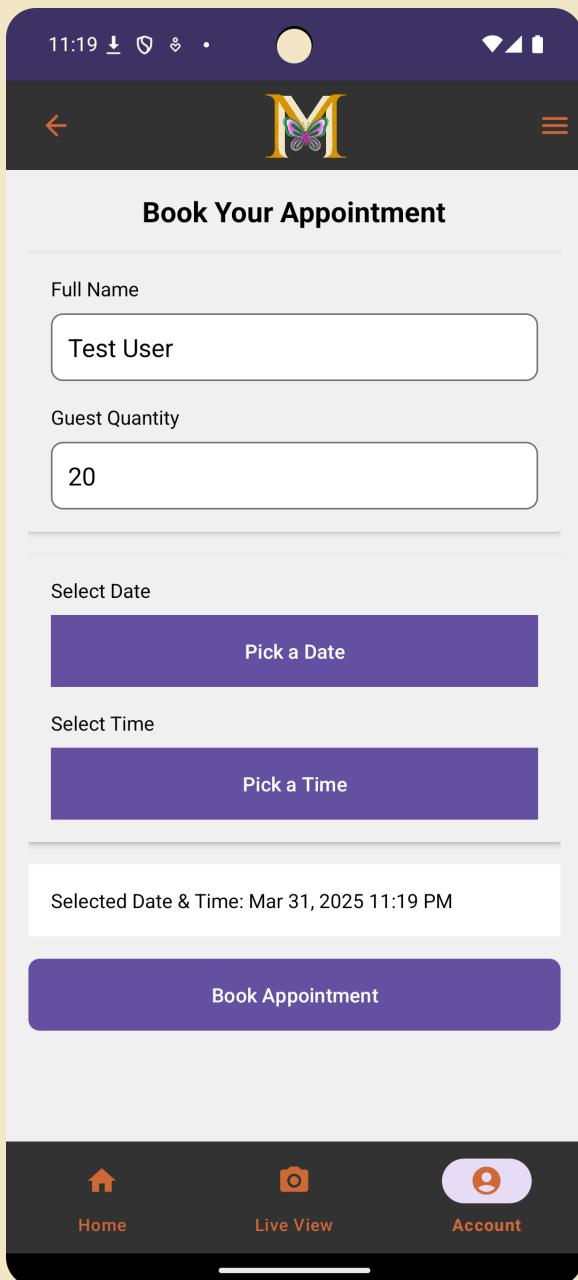

Adjust the size of the model by pinching the screen and move it by dragging the item. Press the Lock Rotation to save the size adjustment of the model

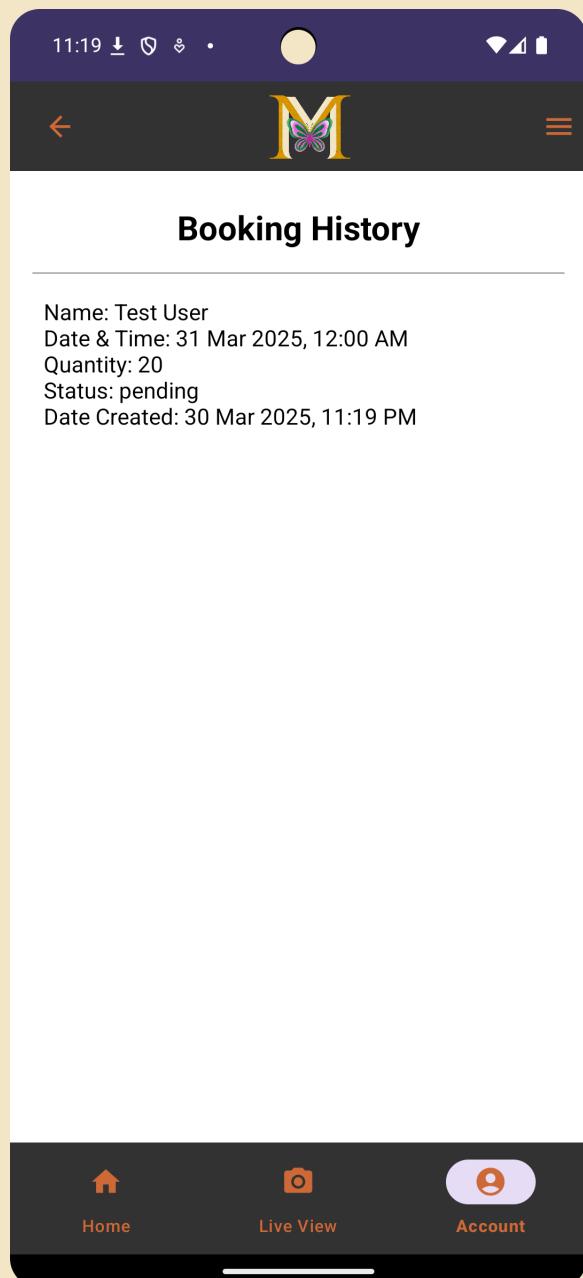

APPOINTMENT

04

Schedule your appointment using the **Appointment System**. Input your name, the number of guests, and the time and date.

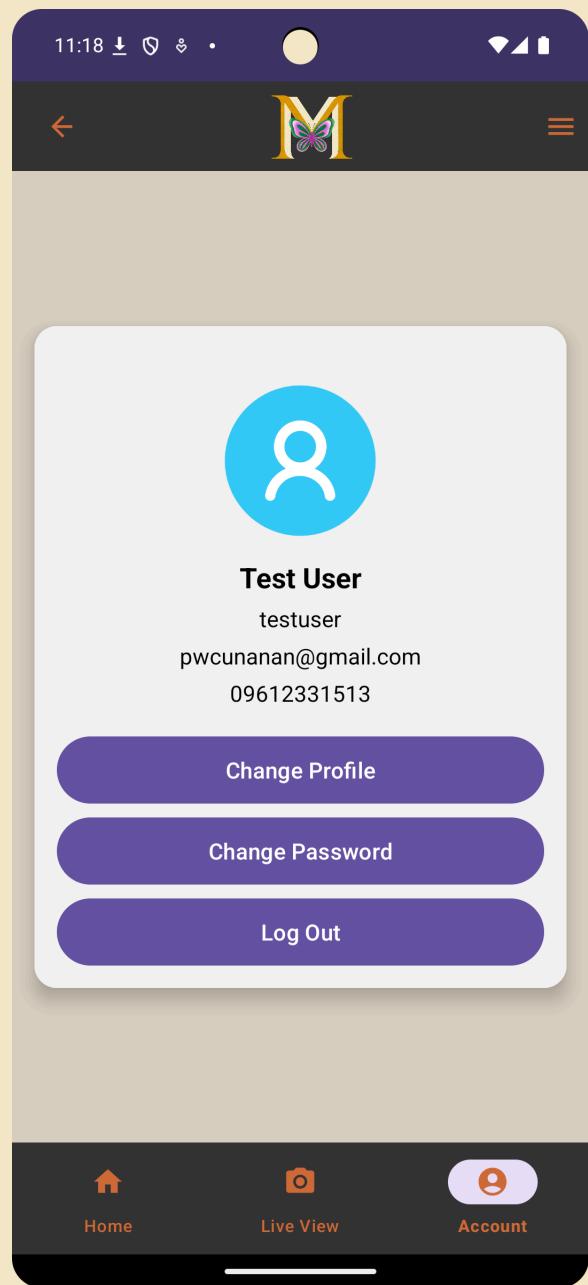

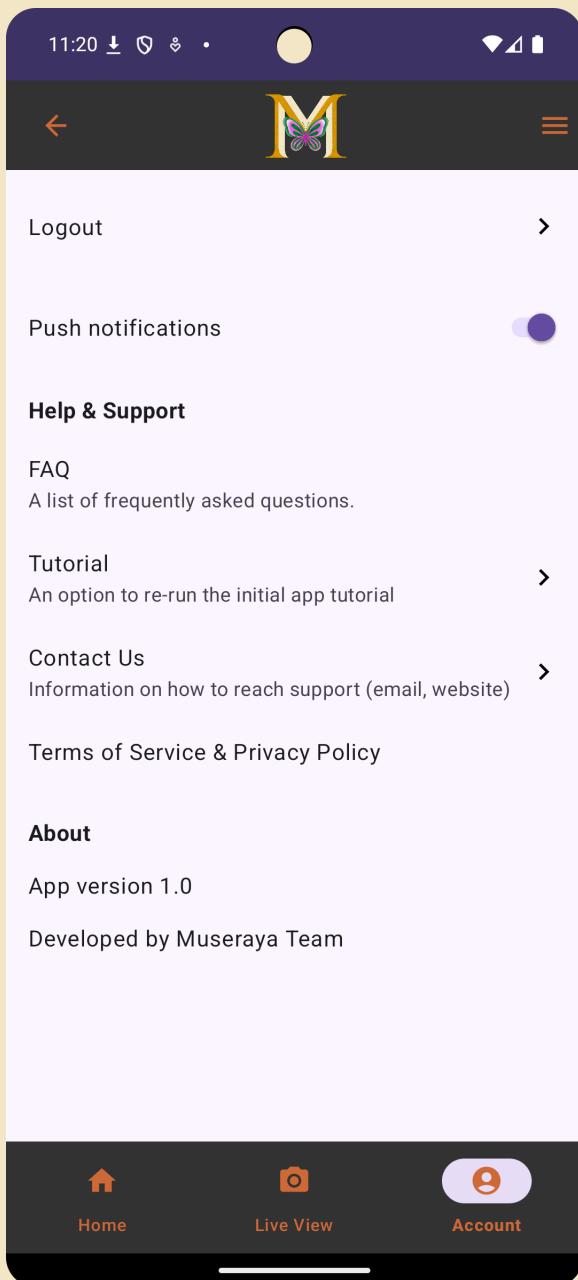

View your **booking history** to see the status of the appointment request

ACCOUNT & SETTINGS

05

Go to the **Account** tab to view your account details, with options to change profile name, username, password, and logout.

Adjust different settings within the application to your preference. View specific details about the mobile application.
